YOUR PARTNER IN STONE PROCESSING

**BRIDGESAW  
TIGER 625**

## TIGER 625 Compact Bridge Saw

Tiger 625 is mainly used for kitchen worktop, memorial tombstone and building/interior stone processing.

No foundations are required as the machine is supplied with its own free standing legs. Therefore Tiger 625 is very easy and quick to install and can be operational in a matter of hours. Tiger 625 has long-life guides and rails that are protected against dust, dirt and any other impurities. Robust and vibration free design offers long operational life with minimal service requirements.

### Capabilities:

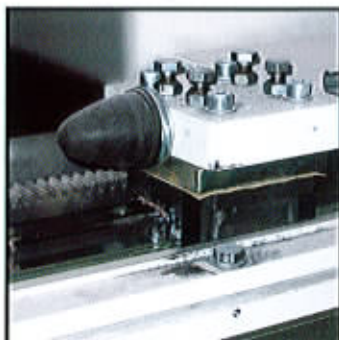

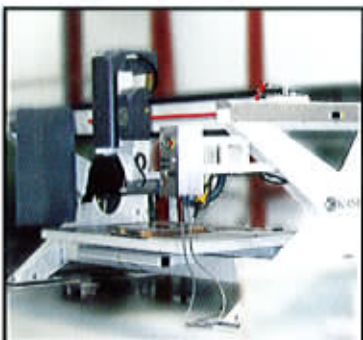

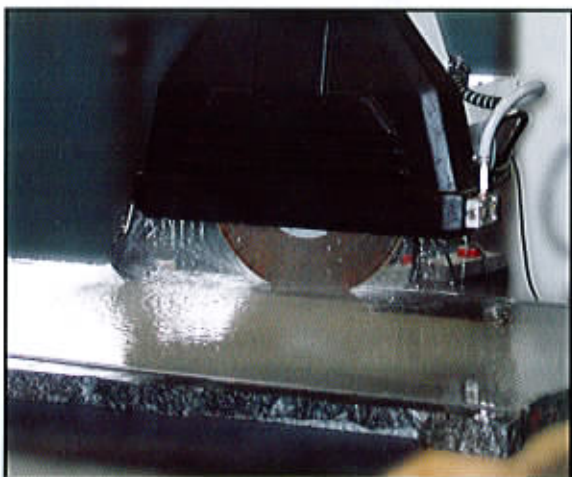

Tiger 625 has been designed to meet demands of most stone fabricators and all kind of stone types.

Machine takes blade size up to 625 mm that can be used to cut square and rectangular pieces of stone.

360 degree turning table, 90 degree turning blade and 45 degree tilting head makes Tiger 625 extremely versatile in use.

### Sawing Automation:

- Programming for 5 different widths and 99 repetitions
- Automatic transfer between cuts
- Single pass or step cutting in both sawing directions
- Control panel easy and logical to use, english language
- Digital display with keyboard and clear graphics

### Technical data

Blade diameter	max 625 mm
Cutting depth	max 200 mm
Main motor	11,5 Kw (ED60%) 955 rpm 400V/50 Hz
Vertical movement of the blade	325 mm
Bridge movement	1700 mm
Sawing length	3000 mm
Table size and height	1700x3000x650 mm
Total need of space	4730x2500x2600 mm
Machine colour	Grey RAL 7035, black and stainless steel

Kasins is a Finnish specialist designer and manufacturer of specific stone processing machinery and also complete automatic production lines.

Over 30 years design and manufacturing experience coupled with flexibility and close contact with the machinery operators have resulted in numerous be-spoke value for money machinery designs.

Kasins utilises the latest high quality base components, cutting edge innovative product designs and latest in-house software technology to produce reliable, accurate, solid, easy to install and operate machines which require minimal maintenance.
